SS18 WORKBOOK

---

Nature beats within us all.  
It's the how and why of us.

We were made to question, to wander, to explore,  
to seek out possibilities and connections.

We live like this not because we want to,  
but because we need to.

We were made this way.

It's our nature to love and be loved,  
to yearn for freedom and find comfort in the place we call home.

We embrace fear and turn it into fascination,  
we adapt, we grow, we break and breakthrough.

These are the elements of what it means to be human.

It's in our nature...

# HUMAN. NATURE

# SS18 SOUTHERN CHRONICLES

Tales of people, purpose and the pursuit of possibilities.  
Created and curated in the southernmost corner of the globe.

## HUMAN.NATURE

Humans. A species born into nature, with the most unique of all capacities: to create, reason, love, and experience a wide range of emotions found in no other form of life.

Philosophers have wrestled for centuries with what makes us who we are.

This season we explore these philosophies and the characteristics that make humans the greatest species ever created. Stories of Belonging, Love, Curiosity, Joy, Fear and Freedom. [Human.Nature](#)

## HOME.

A place of belonging, a place beyond a location, a place where everything is just so.

'Home' heros the people and culture of New Zealand through our Growers series and a seasonal story entitled 'Tūrangawaewae'.

**Tūrangawaewae** – is one of the most well-known and powerful Māori concepts. It translates to tūranga (standing place), waewae (feet), meaning 'a place to stand' and a place of belonging.

Human.Nature showcases the connections of people to their places of belonging.

## ALTITUDE TO OCEAN.

To seek and to wander lies deep within the psyche of every human being – curiosity and motivation converging to create passion and endeavor.

This season we adventure through our place of home, New Zealand, and roam the North Island from sky to sea to experience the vastness of what nature provides – to explore, to adventure and to experience our true selves in the finest of landscapes.

'Scenery is fine, Human.Nature is finer.'  
John Keats.

## NATURE MADE.

The power of nature and humans converging to discover better and more sustainable ways of existing. Merino and TENCEL® are the epitome of this: humans and nature working in harmony to bring the most natural performance propositions together. Cool-lite™ is our luxury natural performance collection.

To support this season's focus, we have interviews, tech stories and short films, showcasing the unbeatable natural performance of merino and TENCEL® and demonstrating why wool is perfect for summer.
