

# MOVE TO NATURAL.

Twenty-four years ago we set out to achieve something different, something long-lasting, something natural and something powerful by creating product solutions inspired by nature.

Today, we're still committed to this belief and way of making our clothing.

From farm to factory to finished garment, every step of our process is showcased. We don't have to do it this way; it's how we choose to design our business. We're not perfect, but we're always seeking ways to be better.

We're proud of the meaningful relationships we have with our partners and growers – connections that thrive on respect, honesty and transparency.

This season we hero those who take the path less traveled and those who seek alternative, natural solutions to synthetics.

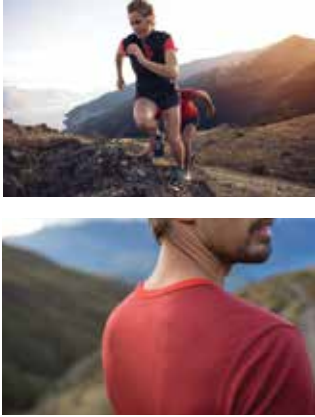

Choose a life less plastic.

# BRAND INITIATIVE

## TEES FOR ALL

We believe that people should know exactly what they are putting next to their skin, and how their clothes are made.

Thanks to our commitment to sustainability and traceability, our tees are the natural and ethical alternative to synthetic solutions.

Made from 100% Icebreaker merino combined with Corespun fabric for durability and TENCEL® for lightweight luxury, these tees are perfect for all of life's adventures.

# SS19 ADVENTURE

Nature has the answers, whatever the adventure. With no compromise on design, function or style, Icebreaker Adventure delivers hard wearing, natural alternatives to synthetic apparel, inspired by nature and designed to perform.

This season we honor the protection of Mount Tarawera, New Zealand, a sacred volcanic site revered by Kiwi - the local Māori people.
